

Spectral Theory by the Lakes

09-10 April 2026, Lancaster

A two day workshop covering almost periodic operators, geometric spectral theory, numerical spectral theory and other topics in spectral theory

Invited speakers:

Catherine Drysdale
Yan-Long Fang
Noema Nicolussi
Leonid Parnovski
Leonid Pastur
Alexander Pushnitski
Jakob Reiffenstein
Mira Shamis
Eugene Shargorodsky

Organisers:

Benjamin Eichinger and Daniel Elton
